 ILTC 2010
 Kallah 2010
 Northeast Hub Regional Board Training 2010
 February Execs 2011 <
 International Convention 2011 <

Bold- coordinated + - committee

Head Delegate - <

My Brother Alephs,

How many members actually get to experience BBYO on an international level? How many Alephs get to feel the full impact of an international order like we do? The answer is, *far too few*. **We need** to connect this fraternity not just the minority of us who attend summer programs and attend International Convention. East Coast Kallah and the Hub regional board trainings are a start, but we need to expand even more on the idea of interregional events that appeal to the average member. International brotherhood weekends of fraternity based programming is something I would like to see accomplished in no more than a few years. For this to happen we must get the ball rolling now. Brotherhood weekends not only give us an opportunity to bring the AZAA back to an international level, but also allow those Alephs who don't attend summer programs to achieve a larger political voice in our Order. **We need** to "shape young lives" in a versatile way, giving them room to grow. Instead of bringing new initiatives to the table next year just to get shuffled under new initiatives after my tenure, I want to expand more on the Degrees of Programming. The Degrees are a great tool I will make sure is being used in the development of programming throughout the Order. In addition, I want to reform the program bank, adding a video component as well as adding subcategories for events such as inductions, separates, etc. Next Year while working with my chapter, council, and regional counterparts, I will revolutionize programming throughout our Order.

Fraternally submitted with undying love and dedication for the International Order of the Aleph Zadik Aleph, Big Apple Region #12, and Meshuganahs AZA #2172

I remain

Aleph Logan Scott Miller

Logan Scott Miller

GOALS FOR THE YEAR

- ✎ Expand more on the concept of interregional programs such as brotherhood weekends, which can serve as a cheaper, and closer to home international event than International Convention and/or summer programs organization.
- ✎ Expand the Program Bank. A video component to the bank can serve not only to visually transfer ideas but also, also as a way to converse with other Alephs throughout our Order. Brief videos providing a synopsis of a program as well as contact information can lead to a larger international feeling for the average Aleph.
- ✎ Add subcategories to the program bank for easier navigation (Ex. Programs for Inductions, Separates, AITs, etc.)
- ✎ Use the concept of Brotherhood weekends to bring the AZAA back to an international level.
- ✎ Elaborate on the Degrees of Programming with each of my regional/council counterpart to help develop programming throughout our Order.
- ✎ Help struggling counterparts across the Order through the concept of niche programming as well as the Degrees of Programming.
