Advancing AZA at Every Level

Accentuating Regional Strengths & Increasing Brotherhood

Universal Fraternity in AZA

Promoting comfortable camaraderie throughout the order by:

- 1. Expanding Inter-regional programs** ~ to foster brotherhood between Alephs who live nearby in a more affordable and effective way than only IC and summer programs
- 2. Reviving International AZAA** ~ to emphasize the spirit of competition and fraternity
- 3. Enlarging Overseas Involvement** ~ to connect North American BBYO to our international brothers through sports and other international initiatives
- 4. Cementing Personal Relationships** ~ which are the heart and soul of AZA (think back to that one Aleph who inspired you to become a leader)

More Jewish Teens, More Meaningful Jewish Experiences

My Brother Alephs, before continuing your research on who will best serve our order, please take a minute to reflect: what was your most enjoyable BBYO moment? Everyone in our organization has at least one, and that is the essence of AZA. There are over 30,000 Alephs around the world because, plain and simple, BBYO is fun. I am willing to guess that your favorite memory took place at a program, because if brotherhood is the mortar that binds our order together, the five folds are the pillars on which it stands. People connect to our order for the fraternity, but they come because of the programming. So now the Aleph Zadik Aleph needs a leader who will motivate others to elevate their programming and advance our order. I am the Aleph who can enrich programming and move our order firmly into the future. With passion and devotion I dedicate myself to the enhancement of our order.

Fraternally submitted with undying love for an admirable order today and an exceptional order tomorrow. I remain,

Gavri

Celebrating Each Region's Original Identity

Greatness comes from individuality, and I will play to each region's strengths through:

1. A Diversified Chair Network which:

-  **Considers unique input from every type of region**, ensuring new initiatives will succeed everywhere
-  **Works quickly and efficiently**, especially over the summer, so regions can adjust and implement international initiatives from the beginning of the school year
-  **Allows each chapter to track their progress** and make sure they are on course to meet their year-end programming goals; done through AZA Programming Point System

2. Empowering Local Leaders to achieve a level of success beyond their expectations by

3. Training counterparts to better train *their* counterparts with individual programming help, year-to year strategies, and big-picture goals
