Improve upon the system in which Impact and Kallah programming is evaluated so that the following years can have better Impacts

Coordinate a Kallah that holds true to the pluralistic aspect of BBYO while empowering teens to take a deeper look into their own personal beliefs and Jewish Identity so that they will become strong Jewish leader.

Dear Brother Alephs,

It is now our responsibility to impact the communities and world we live in. We have grown up knowing the responsibility would be great but together we can do it. I promise that with me helping guide you we will create impact in our Tikkun Olam efforts, find greater achievements in our Judaic preservation, and begin to have a deeper connection with Israel. Our efforts have been great... but why stop there? We must keep pushing until we reach 110%.

Fraternaly Submitted with undying love for Indy Brae Sheath AZA #246, KIO, our International Order, and the voices we have to change the future. I remain:

Aleph Aaron Webster
