2009 Regional Convention Agenda

- Have practices for events like basketball, whirly ball, and game board challenge – it's important to build teamwork and team skills to win Regional Convention
- Make sleepovers more enjoyable by spreading rehearsals out over a longer period of time – this helps to make sleepovers more successful and to make sure our talent show, song and cheer are well rehearsed
- Start planning for Regional Convention far in advance – if we plan before hand, we can make sure to have as much fun as possible while working hard to win Regional Convention. Also, we can make a schedule for rehearsals and team practices
- Talk to the Gizbor about lowering the cost of Regional Convention as much as possible – the lower the cost the better for everyone
- Make sure AIT's are educated about Regional Convention well in advance – to maximize attendance, the chapter needs to be well informed about Regional Convention and why it is important to attend
- Have a balance between trying to win and having fun – working to win without trying to have fun will not turn out well. At previous Regional Conventions, tedious work on song, cheer, and talent show led to tired and bored members. Balancing fun and work will make the outcome of Regional Convention the best possible
- Work on chapter bonding throughout Regional Convention – it is important for the chapter to work as a team; together we can!
- Do the best we can at each event throughout Regional Convention – working hard at everything we do will lead to success for Max Fisher AZA #337
- Be organized before and throughout Regional Convention – it is imperative to be structured; winging it through Regional Convention could be disastrous
