BBG and AZA offer a place for disclosure, a place to be you without judgment. BBG and AZA offer a place to be a proud Jew, but most of all, BBG and AZA offer a place for us to continue the future of Jews, to establish Judaism as an infinite movement.

each other for who they are. Rather than recognizing the negative, BBGs and AZAs embrace the positive BBG has brought this lesson to life. Whether it's a summer experience or at a chapter program, everyone accepts differences that make them individuals.

But most of all, Judaism has taught me to be the best me I can be because acceptance is the basis of our religion.

Through Judaism I have learned to appreciate everything given to me and to push through the hard times because Saturday or Sunday helping kosher, I have gained morals and an understanding of myself just by being Jewish.

Without Judaism, I would not be the same person. Judaism has outlined my life. Whether it is going to temple every Shabbat or simply keeping kosher, I have gained morals and an understanding of myself just by being Jewish. Being a Jew has established me as a person because no matter the hardship, we have survived. Where else do you find people that persevere as much as we do? It is now our duty to preserve ourselves as a people. Our faith cannot end.

MY STORY

Dear my sister B'nai B'rith Girls,

The power of our movement creates infinite ties that link sisters all over the world. The power of our movement has the potential to produce an infinite number of leaders in the world. The power of our movement has infinite effects on the world's well being. The power of our movement controls the infinite future of the Jewish community.

We are growing as Jews today and every day.

We control the future.

Submitted with undying love for being an infinite BBG,

I forever remain,

Andie Leigh Djamal
