AZA's our name, **Five Fold and Full** our aim,
Fraternal Love will stand above,
And bring our Order fame
Brave Boys
And Bring our Order fame

(menorah graphic with labels: JUDAISM, PATRIOTISM, CONDUCT, FILIAL LOVE, PURITY, CHARITY, FRATERNITY)

My Brothers,
    This is my hope that this year will be **The Year of the Program.** This year, BBYO will move beyond its normal levels of programming because quite simply, the level of programming we have now, while great, is not good enough to keep up with the level of membership and involvement we have. Therefore, this year, we must change our ways. Fortunately, we already have the tools in place. We have the **Program Bank**, **3 Degrees of Programming**, and **International Chair Network** at our disposal to improve our programming. Instead of creating some vast and confusing new way of programming or rating programming, this year we will instead go **back to the basics**—programming is fun—and **work towards our grander goal**—programming should be strong and bring a message.
    At the beginning of my term, we will begin breaking down programming, and then throughout my term, we will further work on it with the International Programming Chairs, International XX's Body, and Regional/Council S'ganim. Then by the end of my term, we will have a strong foundation with very strong programming on top. That is how we will build up our programming to catch up with, exeed and lead our order.

Fraternally Submitted with Undying love,
I remain
Aleph Nathan Meyer Feler

THE YEAR OF THE PROGRAM

THE YEAR OF THE PROGRAM

International Convention

IC needs to become a central figure in BBYO's powerful programming and initiatives.

The Plan

Have a larger number of people involved in planning IC

Have more informational programming to help members with initiatives and their own programming

Have stronger standard of programming to ensure that the programming is truly the order's best.

Program Bank

Finish the work started by the 2011 Program Bank Chairs by cleaning up the Program Bank and getting more quality programs submitted.

The Plan

Have an eight-person Program Bank team.

Use the Bank as a way to assess programming and get information about progress.

Promote the Bank across the Order to get more programs submitted.

International Chair Network

Use the International Chair Network to both accomplish tasks and as a Cabinet to advise the International S'ganim.

The Plan

Have a strong and able International Chair committee with much and varied experience.

Maintain constant communication will all the Chairs to get their ideas. Keep them all in contact with each other.

Use the International Chair Network to disseminate information.

3 Degrees of Programming

Maintain and improve the 3 Degrees so that they can effectively work in all regions and councils.

The Plan

Ensure that after the 3 Degrees are taught at Summer Programs, members take them home and use them and stay informed.

Assess weaknesses and strengths with the International Chairs, XX's Body, and Regional/Council S'ganim.

Tailor the 3 Degrees to each region/council's strengths and weaknesses.

Counterparts

Maintain constant communication with my counterparts to keep everyone informed and learning.

The Plan

Converse weekly with counterparts.

Learn from my counterparts while teaching them.

Work with them to rebuild programming together.

Work as a community of S'ganim (everyone staying connected) to better programming everywhere.

Maintain constant contact with International counterparts to ensure that everyone across the Order benefits.

Rebuilding the Program

Work with the Regional/Council S'ganim, XX's Body, and International Chairmen to take programming back to the basics—programming is fun—and rebuild it to a greater strength—programming is meaningful and powerful.

The Plan

Work to decide what makes the foundation of a program. How can we use this base to attract members?

What can add to a fun program to make it a strong program, and what detracts from it?

How can we use our programming to better our Order and our membership?
