My Brother Alephs of Lantos AZA #2539,

I want to be your 14th Aleph Godol. I have so many great ideas for this chapter. Some say we are in a bit of a funk right now. I say, "That's okay" because we can get out of this. We can rise up and excel. The missing ingredient to a perfect chapter the past couple of terms was board cohesiveness. I promise to bring this back as we have not had it for at least a year. With my board working together as one unit I know we can achieve anything. From awesome successful fundraiser to programs to remember, this upcoming term will be one to remember.

Fraternally submitted with undying love for Lantos AZA #2539, DC Council #54 and the International Order of the Aleph Zadik Aleph, I forever remain
Amit Yonatan Koppel
