International

CLTC 2 '15

Chapter Fundraising Chair

Planned fundraiser that raised hundreds

Tree Of Life Award

Bronze Shield of David Award

IC '16

Learned the importance and values of the international order

Anita Perlman International Stand Up Award

Letter

My Brother Alephs,

It has truly been an honor serving as both **Moreh and S'gan over the past three terms**. I can honestly say it has been some of the best time of my life; memories that I will cherish forever.

I have a vision for the order, and more specifically this chapter. We have always prided ourselves on being the strongest chapter, the ones who plan projects with excellence and win awards and set an example. Our chapter is the **role model of the region**.

This impressive title does not come easy, just as it is not easily kept. We must work hard and strive for greatness to uphold our excellence.

If elected as your Chapter Godol, I will not only continue to hold our chapter to this degree of distinction, but I will strive to **improve our chapter as seen by its members**.

Randy Reisbord AZA #1935

The Best Chapter In the Order

Ideas

❖ Program For the Members Enjoyment

Our chapter is incredibly strong, and our order stronger. However, we can only succeed based on one thing: Numbers! We of course will plan to excellence, but it is paramount that members enjoy events.

❖ Reisbord Scholarship

I would like to start a need-based scholarship fund for regional conventions. This money would be raised by our chapter and given out to members of our chapter at the discretion of our advisors.

❖ Integrate Freshmen

Freshmen aren't just freshmen. They are rising sophomores, juniors and seniors. If we invest time and effort into making sure our freshmen enjoy and see value in the chapter, they will add value to the chapter as they grow.

❖ Brotherhood Retreat

A two day-one night camping trip would be incredibly successful. This retreat includes activities intended to have fun and hang out and a couple programs intended to strengthen our brotherhood.

Communicate

תקשורת

As Godol, the board will function as one entity. Projects, events and ideas will flow through necessary personnel in a timely and orderly manner. This will be done by (at least) bi-monthly board meetings as well as encouraged communication between different board members.

Execute

לְבַצֵּעַ

As Godol, I will not make empty promises. I truly believe that with the ambition of our work and goals, paired with our outstanding advisors, we could truly accomplish anything we set our minds to.

Inspire

לְעוֹרֵר

As Godol, I pledge to inspire and adapt to the new freshmen coming into the chapter. They are the future drive of this chapter so we must invest into their needs
