Community

- Volunteered at J-Serve Houston: Unmask Poverty
- Emmanu El Harold Reingold Award Recipient
- Member of Westside Engineering and Geosciences Academy

My Brother Alephs,

The reason I and many of us here today are members of BBYO is because of the impactful programming this organization has to offer. BBYO allows us to engage in something more than ourselves by providing us with a fraternal and social experience through structured programming. The role of s'gan is a crucial part of our chapter's success as he is responsible for creating these programs that make such an impression on every aleph. Randy Reisbord is the best chapter in the order and that is due to the great fraternity we convey but just because we're the best doesn't mean we can't be better. It would be incredible if we could exceed our already great attendance to projects by continuing to improve programs and allow more of our less active members to feel the fraternity that we do. It would be my honor to fulfill this position and be able to carry out these important duties that those before me have done to make my time in BBYO so wonderful.

X

Before you are a leader, success is all about growing yourself. When you become a leader, success is all about growing others.

-Jack Welch

Goals and Ideas

- Project Planning Committees—I will create project planning committees for all projects to help members of the chapter get involved. This will not only improve programs but this will give members who are not on board a chance to get interested and hopefully encourage them to run in the next term.
- Working With the S'gan Shenim—I would like to utilize the s'gan shenim as much as possible this term. I will consult with my s'gan shenim before planning any projects to discuss the different ideas we have and also use them throughout the planning process.
- Engaging Members—One of my goals as s'gan is to create programs that will engage even the less active members in our chapter so we can keep up and hopefully even increase the already great attendance we have.
- Meeting With Counterparts—I plan to reach out to not only the chapter s'ganim in the region but also meet with the regional s'gan for ideas to create the best programming experience possible.

Communication

- Advisors—I will talk with advisors throughout the planning process of projects to ensure we are doing everything within BBYO guidelines
- Godol—I will communicate with the godol on all matters to make sure things are being done in a correct and effective manner
- Morim—I will work with the morim to incorporate educational and fraternal aspects to create effective five fold programs
- Mekasherim—I will work with the mekasherim to make sure we are able to accommodate new prospects into our programs and ensure they have a great time
- Shaliach—Working with the shaliach will be very important to the implication of religious and community service aspects to projects
- Mazkir—I will work with the mazkir to make sure everyone in the chapter is updated on project information
- Gizbor—I will work with the gizbor with any fundraising projects he shall need help with to make sure they run smoothly
- S'gan Shenim—The s'gan shenim will be heavily used in all programming efforts from planning to executing
