MY BROTHER ALEPHS...

Our chapter is very similar to the game Rollercoaster Tycoon. We have promoters constantly want people to come into our amazing amusement park, and we have engineers building and designing rollercoasters for people to ride every day. And then there is the main player of the game, the Godol. With one click of a button, the Godol has the power to destroy a rollercoaster and kill people, to make the entire amusement park a joke. I promise you that I will be the most responsible player of Rollercoaster Tycoon because I see the potential in this amusement park. And I believe I am the right player to run this chapter.
