- 5-6 folds per program

Programming is essential for a strong chapter, which we most definitely are. Without strong and engaging programs, our chapter, but most importantly the entire organization, would not be able to function. Programming truly is everything. It's Judaism, it's recruitment, it's sisterhood, it's anything a BBG could want. This term will be catered to the chapter. Programs that the chapter wants to have will happen and I guarantee that.

If elected as your s'ganit, I promise to construct chapter programming that is interactive, engaging, innovative, and builds in the 6 folds for incredible events!

With undying love for field hockey, GNC,
Uruguay, twitter, chofesh, SSC, sloths, eggplant emojis,
wakeboarding, science, GMR #61, Ahavah BBG #2414
and each and every one of you...

I remain,
