my sister B'nai Brith Girls,

I stand here before you, with the fervent hope and desire to serve as William S. Malev BBG #1866's 2014 Fall Term S'ganit. Just as each puzzle piece has a place where it belongs, I feel that I have finally found my match as a part of Malev. In BBYO, we are all pieces of our chapter, region, and the international order.. It is my goal, if I am elected to serve as S'ganit, to try and help piece together the six folds to try and create the perfect project. Making sure that each event is unique, fun, and informative programs, I will try my best to get people involved and wanting for more. By having strong programming the members involvement in Malev will increase. However, there is one piece missing, and that piece is you, where do you see Malev going, how do you want your chapter to be? With your help, I will do my best to finish the puzzle and ensure that Malev will be the best that it can be!

RSWULF Summer Break, Camp Champions, Zoo Crew, CLTC 5, Siggy's throughout the international order, The Green and White Frogs of the Greater Houston Council, The Red, White and Blue Armadillos of Lonestar Region #73, and lastly, the lovely red and gold cougars of my heart and home, William S. Malev BBG #1866

I remain,
Leah Rebecca Potylchansky

Goals

❖ Do my best to create the strongest programs
  ❖ 3rd Degree
    ❖ All Folds of BBG Included
    ❖ Planned 2/3 Weeks In advance
    ❖ On Dashboard 2 weeks prior to event
    ❖ At least One BBYO advisor is present
❖ All programs should be informative while also being fun.
❖ Have at least one BBGG Program this semester.
❖ Work with the Sh'licha to make community service a more prevalent aspect of Malev.
  ❖ Coordinate a monthly service opportunity
❖ Get non-board members involved in the planning process

❖ Increase the overall activeness of the chapter
❖ Design and execute meaningful programs
  ❖ These programs should make an impact while also having a recreational/creative aspect, ensuring that people are going to have a good time.
❖ Ensure that Malev's programs are events that member's want and will enjoy
❖ Have at least one sisterhood night with a strong separates program and a good and welfare.
❖ Ensure that everyone is told about all events and programming a head of time so that they can plan accordingly.
❖ Work with the N'Siah to ensure that the board and chapter are going strong
  ❖ By having this strength, we can be sure that the MITs of 2014 will fall in love with William S. Malev BBG #1866.

Steps

❖ Work with the Sh'licha to make community service a more prevalent aspect of Malev, by ensuring we have a standup cause we are passionate about.
  ❖ With this passion, we can have monthly stand up events/volunteer opportunities.
❖ Utilize Committees
  ❖ Create committees to assist any board positions with help they may need.
  ❖ Create committees to get non-board members involved in the planning process of projects, programs.
    ❖ With the help of a project planning committee, plan projects two weeks out which will allow for more 2nd and 3rd degree programs.

❖ Utilize Program Bank
  ❖ By using program bank, I can come up with ways to improve already successful projects and find insight on what to do to avoid projects not working out to the best of their ability.
❖ Make up that will be as little to no cost as possible.
  ❖ You don't need to spend an arm and a leg to have fun, with a little bit of creativity anything is possible!
❖ Create a survey to find out exactly what members want in the projects
  ❖ Creating this survey will ensure that people enjoy the projects and won't feel that they were board or they have wasted time by attending

Individually Unique. ♡✡♡ Together Complete.
