#### ◆ Awards

Most Fraternal Aleph — Conclave 2010

#### ◆ Outside of BBYO Secretary of Horizon's Jewish

Student Union

My brothers, I have had many goals throughout my BBYO career, but being regional s'gan is the goal I have strived to achieve ever since I was a freshman at my first conclave. I saw the passion and dedication that people had towards this region, and I realized how touched they were by this one word; Conclave. I see it as being the most touching and meaningful event our region has to offer and it would be an absolute honor to be able to plan that event that brings so much joy to the thing I love most; Mountain Region. I am eternally submitted with undying love for The grand order of the aleph zadik aleph, Jonas Salk AZA #2357, and the greatest region in this damn order, Mountain region #47. I will forever remain Aleph Liam Levinson, candidate for the high and honorable position of Regional S'gan.

## Ideas and Goals

### Mountain Region Program Bank

The program bank is a very useful resource. It has programs from all types and helps a lot of s'ganim throughout the order. But I think that every region should have its own program bank fitting the particular regions climates and geographical locations. New events and program ideas would also be entered into the online site weekly.

### Conclave

I will plan the most sleep lead conclave this region has ever seen. My goal as s'gan will be to provide not only my counterparts but also the other members with tools to be great leaders in this organization, regardless of their BRVO board status. There will be several different conclave committees who will be planning different aspects of the event. These committees will have representatives from all councils in the region.

### Communication

Communication is going to be a very important aspect in my term as s'gan. I will be in very close contact with all my counter parts both by email and by phone calls. I will want monthly reports from chapter s'ganim saying what their thoughts and concerns are so that we can avoid problems from happening.
