My brother Alephs, my AZA career hasn't been long but despite that fact I believe I can be the best Sopher Eastern Region has ever seen. My job as a Sopher would be to create newsletters and the occasional slideshow. I will create entertaining and cool newsletters that will be the best newsletters eastern region has ever seen. If elected I will work beyond the requirements of Sopher and document a convention. Going beyond simply taking pictures of a convention, I will create a mini documentary that will celebrate the events that will be memorable to all of us for years to come. Having the ability to wield a camera and utilize professional level editing software, there is nobody more qualified than me to hold the position of NCC Sopher.
