My Sister B'nai Brith Girls,

"Hurricane Katrina? More like Hurricane Tortilla!"
"Adam!" "Hi, Welcome to Chili's." What do all these seemingly random phrases have in common? They all came from the video sharing app, Vine. In the app which launched in 2013 and was unfortunately shut down in 2017, videos of up to 6 seconds could be recorded and shared to the world. These videos gained a massive cult following and transformed social media as we know it. Just how Vine changed the social media game, I will change the Tikvah social media game with hard work, dedication, and fun!

Respectfully submitted with undying love for my friends, spooey, Joe Keery, my dog Charleston, Camp Olympia, Lonestar Region #73, my heart and home Tikvah BBG #2473, and each and every one of you,
I Forever Remain,

Sydney Blair Fay Hammerman

A damn proud candidate for your Spring 2018 Mazkirah
