Goals & Objectives

To Serve as a Resource to All Chapter Shlichim

Through routine, weekly contact, I intend to aid chapter Shlichim in pursuing their goals pertaining to community service, Judaic programming, and Stand-Up. In addition to maintaining individual contact with chapter Shlichim, I will create a facebook group that will facilitate the exchange of ideas between chapter Shlichim. Additionally, through informative, engaging releases, I will educate and inform chapter Shlichim on an array of subjects in the realms of community service and Judaic programming.

To Aid Counterparts in Instituting Routine Community Service

Through surveys and questionnaires that will gauge chapter members' community service interests, I intend to help the chapter shaliach integrate enjoyable, routine community service into his chapter's schedule.

To Facilitate and Increase Involvement in Stand-Up

To facilitate involvement in a Stand-Up campaign, I will, with the input of chapter Shlichim and chapter members, establish a regional Stand-Up cause early in the term. For each chapter, I will compile and distribute a resource detailing potential services opportunities relating to the regional Stand-Up campaign. This initiative will certainly foster involvement in Stand-Up and should ultimately enable chapters to effectively deviate from the prescribed regional Stand-Up cause.

To Ensure Routine, Enjoyable, and Informative Jewish Experiences

Through periodic releases informing chapter Shlichim of upcoming holidays, chapter Shlichim will be better equipped to educate their chapters about Jewish holidays. In addition to outlines of holidays, I will include in releases event ideas that implement elements of upcoming holidays. This initiative will reinforce a greater appreciation and understanding of Jewish holidays and topics in an enjoyable, engaging format.
