Sh'lichah

position of
a candidate for the high and honorable
Elizabeth Zelda Kagan

My sister B'nai B'rith Girls,

An interesting fact about peas is that they can be eaten straight out of the pod; they can be taken as they come; no added preservatives or chemicals needed in making them their own perfectly unique selves.

We are all many peas that fit in the Ahavah BBG pod. It is something we all have in common and couldn't be more proud of.

This programming year, I want us all to gain a deeper understanding of what makes us so unique. The Three Lost Folds are often forgotten, and together we can work side by side to regrow their importance.

We are responsible for the change we make in this world, and through Community Service and Social Action we can make our world a better place to live in. By embracing our Jewish culture, we can truly define our bond and connection with each other.

Submitted with an undying love for Jewish Heritage, the Three Lost Folds, working together, Ahavah BBG #293, Michigan Region, and each and every one of you,
I remain,

Elizabeth Zelda Kagan
