The trip always has to come to an end:

- (Senior Appreciation)
- Make sure Seniors are staying active
- Have specific upperclassmen events to celebrate them
- Have a special senior separates and senior lives during senior month
- Give memorable gifts at the end of the year so they always remember Aliyah

My Aliyah trip has been my favorite adventure ever! I have bonded with all grades and met my best friends over the year and a half. Aliyah has taught me how to be a leader, how to be a sister, how to live life to the fullest, and how to make memories. If elected, I will pass down everything that I have learned to the MITS and help them to have the best four years of their lives. I will have memorable events and bond with them to make them feel at home. I am so inspired by every single girl in this chapter. The passion I have for this chapter is unbelievable. I want to be able to share this adventure with you!
