GOALS AND IDEAS

My Sister N'siah, my sister B'nai B'rith Girls,
The 2014-2015 programming year starts today. It is up to all of us to **make an impact on the world to come.**
We have the ability to retain more and more members, but we must begin with the basics. **Programming is the essential part of a BBG's journey.** It's the time where a member **first becomes inspired to become part of something bigger.**

Together, we can **take our programming to the next level.**

Together, we can create **an amazing future.**

Our **potential is infinite** and the **possibilities are endless.**
