Aleph Godol and My Brother Alephs,

Just a few years ago, Henry Monsky was about to fold; a living testament of this fact is the seniors now. However, our brothers had the determination and passion to bring the Chapter back to the top as one of the best Chapters in the Region.

My life has started to revolve around BBYO. And it is only the truth when I say that each and **every** one of you has shaped me into the person I am today.

It would be my absolute honor to assist the greatest Chapter to reach its maximum height and potential. And that starts with all of us. Not just the Godol, and not just the board. The Chapter will excel if every Aleph has an opinion and a say.

I have heard countless cases where an Aleph has quit BBYO because they felt they were not heard, this term will end that problem. With the help of committees and even more, as Godol I will make sure that no idea is completely shut down before completely heard.

Our overall goal, especially for the seniors, is to have a good group of brothers that they can feel comfortable of leaving behind. They definitely have done that; and by the end of this term, our AITs will really prove to the seniors that they left us with a great group who will take Monsky even higher.

This upcoming term, I will do my best on improving every aspect of the Chapter so that there are no loose ends. They say that 'you're only as strong as your weakest link.' As Godol, I promise that there will be zero weak links.

We have the ability to do great things boys, help me take that next step to prove to everyone in NTO and Internationally what Henry Monsky AZA #791 is truly made of. There's a reason our Chapter name is Henry Monsky.

Fraternally Submitted With Undying Love for, CLTC 7, Chai V'Kayam AZA #890, Henry Monsky AZA #791, North-Texas Oklahoma Region #74, and all of you manly men who I can call my brothers.

I remain Aleph Samuel Isaac Zoller.

Goals

Programming

Throughout the term, I, as will the rest of the chapter, will work closely with the S'gan to make sure we have the best programming in the Region and have fun while doing it. There will be committees elected to plan all different types of project. A main point for this term's programming is incorporating the five folds whereas, there will not be any repetitive projects/programs throughout the term.

Brotherhood

I will work with the Morim and Mekasher on planning a great Chapter-Brotherhood-Overnight for the term. We will have many other overnights, but this overnight will be focused on increasing our brotherhood outside of retreat. The most important thing in an AZA Chapter is Brotherhood and Fraternity; this term will insist on increasing this point. The Morim will not only focus on education (etc.), but will also focus on making sure that Henry Monsky AZA is a place for us manly men to feel comfortable and confident around our fellow brothers.

Judaism

In the year 1923, a group of 15 ambitious, Jewish manly men in Omaha, Nebraska organized a fraternity that was called AZA or .אזא This was so Jews could finally congregate and also have their own fraternity; not only that, but to keep the Judaism and our history alive. Their mission was and still is, "More Jewish Teens, More Meaningful Jewish Experiences." Judaism and Judaic programs are incredibly vital to a Chapter. This term, I will work the Shaliach to create more meaningful, and engaging, Judaic programs and Shabbats for the entire term.

Goals Continued

Fundraising

This term, the Chapter must raise more money. The entire Chapter will discuss what type of fundraisers we could do throughout the term; this will take place at a meeting headed by the Gizbor. One fundraiser we will do this term is the Monsky Garage Sale. Families will be able to contribute and a percentage will go to Monsky.

Pride in the Chapter

Being at CLTC 7 last summer, attending AZA BBG IC this year, and even walking around pnf on a Saturday night, I have noticed many people taking pride in their Chapter. There is a sense of pride in Monsky, but one goal I have always wanted to carry out is creating a sense of "bleeding blue & gold" in every Aleph. When someone asks what Chapter you are in, the correct response (after this term) will be, "I am in Henry Monsky AZA #791, the best chapter in NTO!"

Counterpart

I will work with our amazing counterpart, Max "The Beast" Feist in making a few projects led by him and check in with him multiple times a month. He will also teach many things to the chapter in meetings and contribute a lot to whatever the Chapter will need.

AIT Class

I will work with the Morim to make AIT packets for the incoming freshman class. Also creating a curriculum to hold AIT-classes at AIT meetings so all questions are answered. The AITs will have an instant passion from the minute they join our amazing Chapter. I will make sure that this AIT class will be the best in NTO and will have the most potential.
