My brother alephs: I stand here before you running for s'gan, not only because I believe I can make a difference, but because I believe *you can*. I have seen time and time again the members take a planned program and shape it in their own way, either for good or for bad. A program can sound great in theory, but it is in practice that truly determines its value. I will do everything in my power to ensure that you mold the program in a way that makes you counting the hours till the next one.

Fraternally submitted with undying love for: Exodus programs, meetings, AIT sessions, dinners, Chipotle runs, chill sessions, volunteering opportunities, and my heart and home Exodus AZA #2425, I forever remain Aleph Aaron Elijah Dobres
