Submitted with underlying love for,  
 Fannie Sablosky BBG #396, blue and black, raggedy ann  
 dolls, NTO #74, maroon and grey, penguins, the six-folds,  
 programming, driving, CLTC 5 2017, Amiti BBG #163,  
 and each and every one of you.  
 I forever remain,

There are so many types of identification: driver licenses,  
 permits, birth certificates, and the likes. But, these IDs  
 only show what's on the outside, not who you truly are. If  
 elected as your Spring Term S'ganit, I would like to make  
 who you are shine. Each and every one of you is unique  
 and I want to bring that uniqueness out. If you don't have  
 one already, I want to help you find your passion through  
 fun and creative programming that every doll can enjoy!
