PERSONAL

- Continue involving folds in program planning
- Ensure that all committees are involved
- Have a fold and committee meeting to brainstorm ideas for the upcoming term
- Make sure all girls that want to be involved in program planning are able to
- Focus on programs where everyone is able to participate rather than having one person go at a time
- Involve all members that want to participate in planning/running programs
- Design flyers for weekly projects to make people more inclined to come
- Put in all of my effort to ensure that I have created the best programs possible that are original and interactive
- Continue to send out my project survey to receive feedback and improve programming based on what the chapter wants
- Secure hosts at least 2 weeks in advance, and ALWAYS have a backup host in case of a last minute situation
- Completely clean up the hosts' house before leaving
- Have all programs finalized and approved but the Tuesday before the project
- Reach out to other chapter S'ganim to have joint projects
- Personally write thank you notes to each project host
- Plan board bonding times besides for working
- Plan more board meetings to define and understand our own roles
- Assist any and all board positions in any way they need
- Work with the sunshine girls to celebrate birthdays one a month at projects
- Add another committee for senior/beau appreciation
- Set aside the first 15 minutes at each project to talk and catch up with friends so they will pay attention during programming
