♫ CLTC VII	International Order		2008	

★ = Denotes Attending

WITHOUT YOU senior appreciation, advisor appreciation, & chapter sisterhood

- ♫ Honor senior appreciation month, planning a nice surprise for Ruach's class of 2010. However, we should always appreciate our seniors.
- ♫ Encourage seniors to stay active throughout the programming year.
- ♫ Honor advisor appreciation month by planning a surprise for our advisor! However, we should always appreciate our advisor.
- ♫ Bring back the big sister/little sister idea to strengthen sisterhood within the chapter. This would help to unite the upperclassmen with the underclassmen.
- ♫ Help in creating new and unique chapter separates.
- ♫ Be available to each chapter member to help in any way that I can.

MIT education

- ♫ Begin creating MIT books in the summer, distributing them by September.
- ♫ Hold one MIT education function at least once every two months.
- ♫ Make education sessions correspond to the time of the year.
- ♫ Create fun ways for the MITs to learn about different aspects of BBYO (through arts and crafts, games, etc).
- ♫ Encourage MITs to run for a position, and be available to help in any way with the election process.
- ♫ Elect a MIT board before Regional Convention.
- ♫ Utilize the MIT board to a full extent. Encourage the MIT board to speak to their executive board counterpart, while working alongside them.
- ♫ Encourage MITs to attend regional and/or international conventions, especially YLC and CLTC.

OUT TONIGHT MIT functions

- ♫ During MIT functions, especially the ones near the beginning of the programming year, fun bonding activities should take place to help unite the MIT class.
- ♫ Near the end of the programming year, the MITs could plan and carry out a small program to present to the rest of the chapter. This would take place during a chapter function or meeting, and would help to educate the MITs and help them work together in planning a function.
- ♫ Plan a MIT separates program or two during the year. These would ideally take place during a MIT function and would help to unite the MIT class and inspire them to take up leadership roles within the chapter.

SEASONS OF LOVE membership recruitment & retention

- ♫ Begin recruiting earlier in the programming year to help boost membership.
- ♫ Create a fun and informative booth at MKOD.
- ♫ Call girls who attended MKOD and didn't join a chapter, encouraging them to consider Ruach BBG.
- ♫ Make a phone call or two to a new member after she joins, welcoming her into the chapter.
- ♫ Encourage chapter members to talk to friends about joining BBG.
- ♫ Call / e-mail / send a letter to inactive members, letting them know that Ruach misses them!
- ♫ Make re-registration as easy as possible by collecting membership fees quickly. This will make it easier to tell how many new members we will need to obtain during recruitment.
- ♫ Distribute driving lists to all MITs at the beginning of the year, letting them know that not having a ride shouldn't be a reason to not attend an event.

"RENT"

Marissa Robyn Wais
for the high and honorable position of
Ruach BBG #83's sixteenth Aym Ha-Chaverot
for the 2009 - 2010 programming year

My sister B'nai B'rith Girls, look around. Take a look at your sisters sitting in this room, look across all of Michigan Region, and look to see everything that the B'nai B'rith Youth Organization has to offer. Finally, look into yourself. "Forget regret, or life is yours to miss". Whether you've just recently joined Ruach BBG or you're beginning to compose your senior life, it is known that the years in this organization go by too quickly. If you are fortunate enough to be able to spend another 525,600 minutes in Ruach BBG, use the time to learn all that you can, experience the sisterhood that bonds every one of us together, and ultimately discover your BBG feeling.

With so much undying love for the MIT class of 2009 - 2010, RENT, the Blue M&M, and each and every member of Ruach BBG #83,

I remain:

Marissa Wais

Proud candidate for the high and honorable position of Ruach BBG #83's sixteenth Aym Ha-Chaverot for the 2009 - 2010 programming year.
